

REAN Cloud - Migrate and Manage

Accelerating Enterprise Cloud Adoption Securely

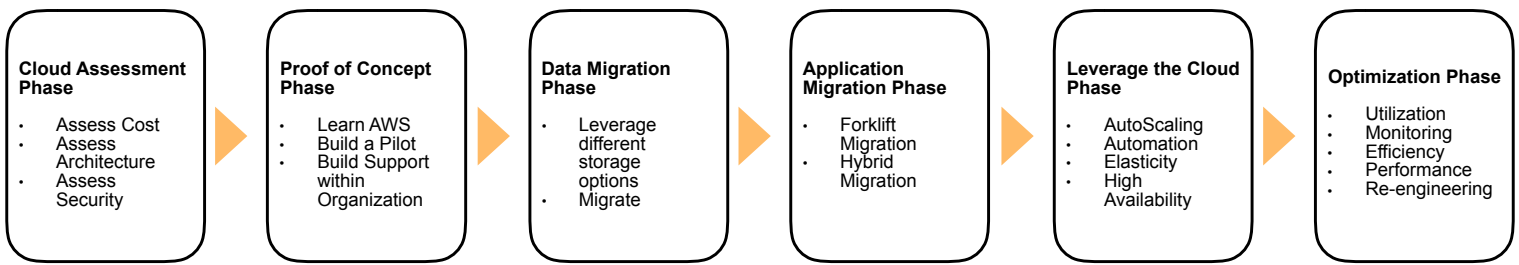

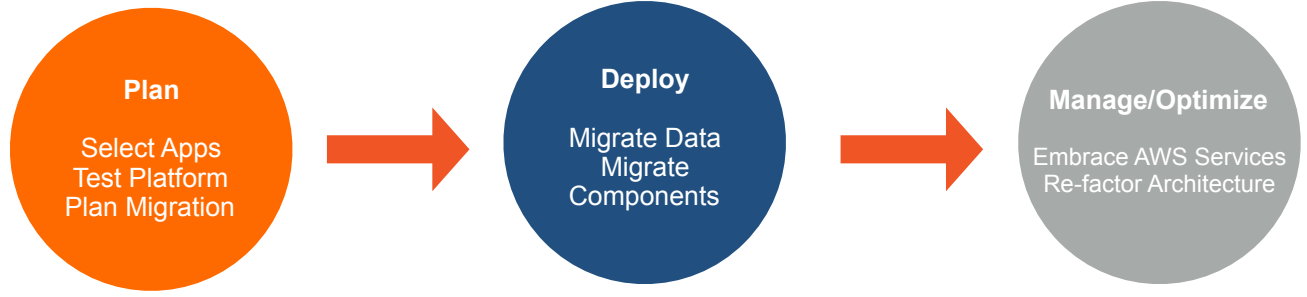

REAN Cloud, a leader in Cloud and DevOps, is a one-stop shop for managed solutions to help organizations become more agile and productive. Our turnkey solutions empower innovation and deliver secure and seamless cloud transitions for organizations, without compromising productivity, security, customer service or budget. REAN Cloud brings a proven Migration Methodology, along with custom cloud solutions, to dramatically improve the speed of migration execution. Explore our Migration Methodology to see how we can improve the efficiency of your network.

150+ Certified AWS Architects
(Includes 10+ Professional Certifications)

+ Accelerators

Accelerate your Application Lifecycle

REAN REAN Cloud allows you to build a highly scalable BYO* environment that can dynamically expand and contract depending on application workload demands, helping you to manage existing infrastructure and software. REAN Cloud will migrate your systems to the cloud, securely connecting your organization to the information that matters.

We understand your business needs and develop your cloud migration strategy to meet present challenges and longterm requirements with a concise recommendation that takes into consideration TCO as it pertains to on-premise vs. Cloud vs. hybrid approach.

Reduce Costs | Maximize Efficiency | Optimize Proactively | Gain Visibility | Reduce Risks

REAN Cloud provides solutions that empower innovation and help safe and seamless cloud transition for organizations, without compromising productivity, security, customer service or budget.

REAN Cloud Differentiators:

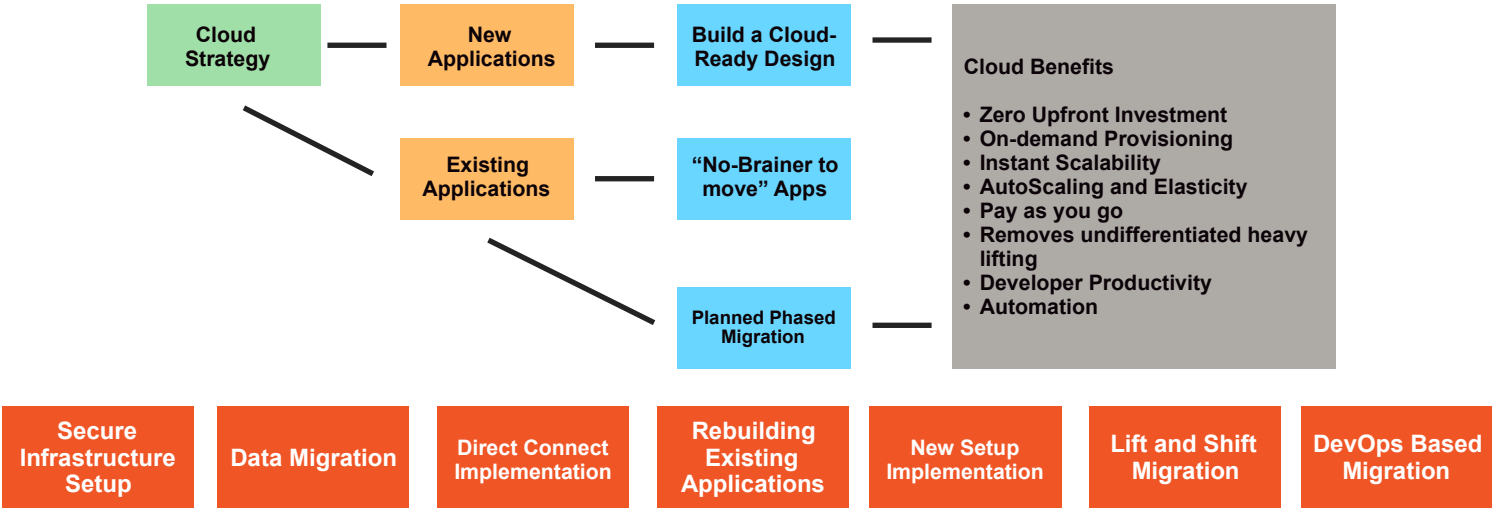

- Comprehensive Service Offerings from Business Consulting to Operations Management.
- Our DevOps Accelerator Platform takes away the guess work and hero work out of Enterprise Cloud Transformations.
- Fully baked and ready to be deployed End2End DevOps pipelines accelerating the cloud adoption.
- Compliance & Security DNA embedded across the board; not as an after thought.

24x7 Enterprise Managed Services:

- Access Management
- Incident Management
- Data Backup
- Infrastructure Maintenance & Monitoring
- Network Management
- Problem Management
- Service Reporting
- System Monitoring, Patching, and Maintenance
- Support Staff Coverage

Add On Services:

Change Management, Application Management, Advanced Security and Compliance Management, Client Specific Services, Web Servers, App Servers, DB Servers, High Availability/Disaster Recovery, Billing Advisory Services, Boundary Management, CDN Services, DevSecOps & CI/CD Services, Enhanced Data Encryption Services.

With REAN Cloud you can migrate your workload to the Cloud and operate them efficiently using the operational and security best practices, while looking for ways to continuously optimize and save infrastructure related expenses.
