REĀN Cloud - DevOps Accelerators

Accelerating Enterprise Cloud Adoption Securely

REĀN Cloud, a leader in Cloud and DevOps, is a one-stop shop for managed solutions to help organizations become more agile and productive. Our turnkey solutions empower innovation and deliver secure and seamless cloud transitions for organizations, without compromising productivity, security, customer service or budget. REĀN Cloud brings a proven Migration Methodology, along with custom cloud solutions, to dramatically improve the speed of migration execution. Explore our Migration Methodology to see how we can improve the efficiency of your network.
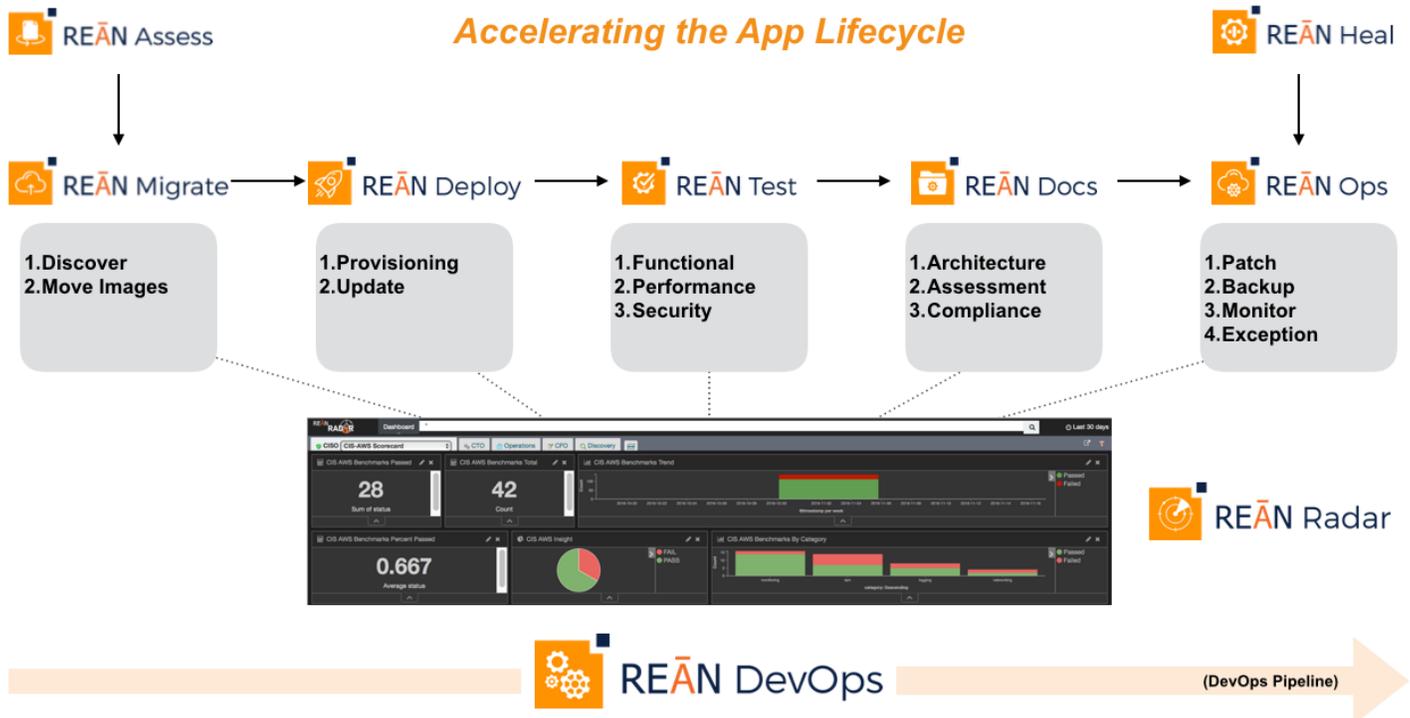

150+ Certified AWS Architects
(Includes 10+ Professional Certifications)

+ **REAN DevOps Accelerators**

= *Accelerate your Application Lifecycle*

A suite of integrated softwares that are designed and tested to work with each other to accelerate your DevOps journey. Products such as REAN Migrate, REAN Deploy, REAN Test, REAN Docs, and more form a part of the REAN DevOps suite, with the intention of accelerating your DevOps and Cloud migration journey.

Accelerating the App Lifecycle

REĀN Assess

REĀN Heal

REĀN Migrate
1.Discover
2.Move Images

REĀN Deploy
1.Provisioning
2.Update

REĀN Test
1.Functional
2.Performance
3.Security

REĀN Docs
1.Architecture
2.Assessment
3.Compliance

REĀN Ops
1.Patch
2.Backup
3.Monitor
4.Exception

REĀN Radar

REĀN DevOps

(DevOps Pipeline)

REĀN Assess

Assess your application and/or system against the relevant security and compliance needs like HIPAA, HiTRUST, FedRAMP, PCI, etc. We also offer a DevOps Maturity Assessment service to understand the current state of your DevOps and Cloud readiness and help you bridge the gap to the next level of maturity with the use of appropriate tools and processes.

REĀN Migrate

Migrate applications and/or systems to and between multiple Cloud Service Providers and on-premise data centers. This can be a complete migration to Cloud or a hybrid model with a combination of on-premise and Cloud infrastructure. We seamlessly migrate your on-premise applications. This automated solution will assist you in right-sizing the server instances to give you maximum cost savings without compromising on overall throughput.

REĀN Deploy

REAN Deploy is a deployment automation tool to deploy and configure simple to complex environments reliably and repeatedly. Installations taking weeks can now happen in minutes – offering HIGH−SPEED deployment automation. Create a visual representation of your application deployment and configurations, and deploy it completely with the click of a single button. REAN Deploy enables you to Deploy your application stack Anywhere, Anytime, on any Cloud or on-premises environment, in minutes!

REĀN Test

A Cloud-based, DevOps centric, test automation tool, which creates dynamic testing infrastructure on the fly to perform rapid in-parallel cross-browser, functional, performance, load, and scale testing. It is a Continuous Testing (CT) tool that gives you the ability to test your web application and provides state-of-the-art test result data analytics.

REĀN Docs

Document your Technical (includes design, architecture, configuration, test results) and Process Controls to support your audit and compliance requirements.

REĀN Ops

Allow us to manage your environments (Development, Test, Staging, Pre-Production, Production, DR, etc) 24x7x365 and provide end-to-end support for all your Cloud infrastructure requirements. We leverage our own DevOps platform such as REAN Deploy, REAN Radar, REAN Test, and REAN Heal.

REĀN Heal

REAN Heal is REAN Cloud's state-of-the-art technology for auto-remediating of your most frequently occurring IT tickets. It auto-fixes over 20%of incoming alerts with zero human intervention.

REĀN Radar

Visualize historical and real-time information with the help of data that is collected and analyzed from Development, Testing, Deployment, Cost, Operation, Security, and Compliance metrics and logs.
